

Within this list there are great resources for you to use in a variety of ways in the classroom. This is a great starting point, but remember when possible, it's always best to engage with local community and bring Indigenous Knowledge holders into the classroom. Many cities have community centres that will have an education department who can connect you to community members or events, and some school boards have a dedicated staff member who can point you in the right direction as well.

Online Resources

Here is a site that will tell you who's land you are on so you can properly acknowledge them and use that specific information: <https://www.whose.land/en/>
