

## **A4: Applying Health and Safety Practices/Principles**

### **Instructions**

1. Identify potential hazards in the room(s) you will be using throughout the semester (this could include tools, machines, chemicals, PPE, waste products, etc.)
2. Describe the proper safety protocols for using each item in the list, according to applicable regulations, rules, and safety standards discussed in class
3. Demonstrate to your teacher that you can follow each protocol before signing off each section
