Star Finder Research

1. Why is a star finder useful?

2. What stars and constellations are currently in your night sky?

3. What are some reasons other than navigation that a star finder might be helpful?

4. Who would benefit from using a star finder?

5. Has anyone else made a similar product?

6. What is unique or surprising about existing star-finders?

7. What are three features in an existing star-finder that you would find useful in your own design?

8. What are three flaws or design choices that exist in a star-finder that you want to avoid?

9. Go to sdgs.un.org/goals and look at the 17 Sustainable Development Goals. What are 1-2 goals that apply to making a star-finder?

10. Of those goals, what are 3-5 targets that apply to the star-finder?

11. Go to https://www.rcaanc-cirnac.gc.ca/eng/1524494530110/1557511412801 and look at the 94 Calls to Truth and Reconciliation. Which, if any, might apply to our star-finder project?
