

Earthquakes Part 3

Grade 5 – Forces Acting On Structures

Testing Structures in Simulated Earthquakes

Make a sketch and give a brief description of what happened in each experiment. Each experiment can contain several tests, such as shaking the same structure with two earthquakes of different strength. Use as many boxes below as you need. Add an extra page to your project if you need to.

Experiment 1	Experiment 2
Experiment 3	Experiment 4

Experiment 5

Experiment 6
