

<b>Energy Storage Device Part 3</b>	Grade 5 – Conservation of Energy and Resources
Energy Storage Device 1 art 5	Grade 5 Conservation of Energy and Resources

## Worksheet

What are you building?
what are you building?
Material List
Material List
How do you plan on storing energy?
(Complete before starting)
(Complete before starting)
How did your first attempt go?

What can you improve on? How did it work out?

What is your input energy source?

What real world examples can you think of that work in a similar way to your experiment?
