

Star Flight- Expert

1. First, fold the right corner down to the opposite side, where the crease begins at the top left corner.
2. Open back up and repeat with the other side.
3. Next, accordion fold both sides in. The result should look like this.
4. Take the right corner of the triangle and fold it to the opposite side.

5. Repeat with the other side.
6. Now, take the first corner and tuck it into the pocket of the second corner.
7. Tuck it all the way in so it looks like this.
8. Flip the plane around and fold down the top peak.

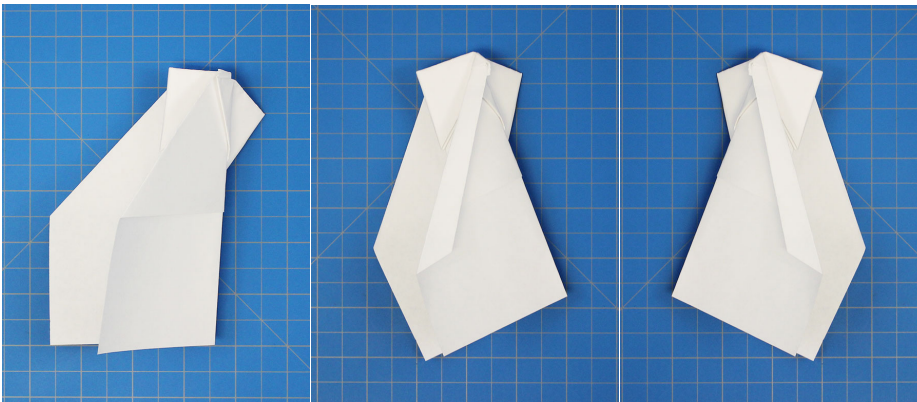

9. Next, fold the plane in half away from you and open up the nose of the plane simultaneously.

10. Take the top part of that inner fold and pinch it together. Close the plane in half so the crease holds.

11. Fold out one wing as close as you can to the inner piece.

12. Repeat with the other side.

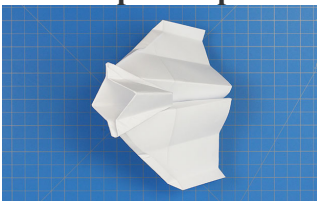

13. Fold both wings over completely and place the plane down like this.

14. Grab a ruler to help you fold the upper edge over as shown.

15. Repeat with the other side.

16. Please view the video for help with the final step: <https://youtu.be/oS0sTsh1thg>
