

Paper Slips

Paper slips to assign the Sun and planets to groups with hints to help them figure out which object might be right one to represent their object.

The Sun	The largest object in the solar system
Mercury	The smallest planet
Venus	About the same size as Earth
Earth	An average rocky planet
Mars	A bit smaller than Venus and the Earth
Jupiter	The largest planet
Saturn	The second largest planet
Uranus	Still a gas giant, but smaller than Jupiter and Saturn
Neptune	Still a gas giant, but smaller than Jupiter and Saturn
Pluto	A dwarf planet is even smaller than the smallest planet
